

## 4 - Part-Time Positions Available LPN (Licensed Practical Nurse)

The people who live in our nursing home are our former neighbors, friends, our parents and grandparents. There is huge satisfaction in giving care to those who have come before us, and our goal is to ensure our Residents are surrounded by compassionate and engaged staff.

We have 8-hour shifts, which, studies have shown, enable health-care providers enough time to recuperate and relax between shifts.

In our 60-bed nursing home, you will be part of CUPE Local 1429, and will be responsible for:

- ...providing Resident-Centred care
- ...providing leadership to team-mates
- ...working to your full LPN scope of practice when required
- ...demonstrating excellent attendance
- ...working a variety of shift types (days, evenings, nights, and week-ends)
- ...working with team-mates to develop creative solutions to address Residents' unique needs
- ...having leadership skills, or a willingness and ability to develop leadership skills
- ...appropriate professional written and verbal communication with families, physicians, management, partner organizations, and (of course), Residents.

Applicant must have:

- Current registration with the NB LPN Association.
- A compassionate nature.
- Adaptable communication and interpersonal skills.
- A Resident-Focused approach to care.

Please apply to Erica McCrea, Director of Nursing, VGM via email at [don@vgm.ca](mailto:don@vgm.ca). Interviews will be conducted via Zoom.
