September 17, 2021

VGM Residents and Families,

Nursing Homes have received a directive from the Department of Social Development requiring all visitors to our long-term care facility to be fully vaccinated, effective immediately.

At your next visit you will be asked to show proof of both vaccinations. Once we have established your vaccination status, it will not be necessary to show proof on subsequent visits.

Please note that at this time, only Residents receiving palliative care are having visitors. When we open up to other visitors, this will continue to apply.

We want to thank you for your continued understanding and support as we roll out this new directive.

Sincerely,

The VGM Management Team
