July 30, 2021

Dear Residents and Families,

Although COVID restrictions will be lifted for the Province at midnight on July 30, 2021, there will be no changes regarding the current policies and procedures in effect at Victoria Glen Manor Nursing Home in the next two weeks.

At that time, we will be notifying families and the community regarding any changes that will be made in regards to our visitation and nursing home access. We will be making these decisions based on the provincial standards and the safety of our residents and staff.

We would once again like to thank everyone for their patience and understanding throughout this process.

Sincerely,

Management Team of Victoria Glen Manor
